PROFESSIONAL SUMMARY

Enthusiastic Full-Stack Developer with a strong grasp of both frontend and backend technologies. Passionate about building efficient, scalable, and user-friendly applications. With a well-rounded skill set in various programming languages and tools, I thrive in dynamic environments where I can apply my knowledge to solve complex problems. Dedicated to staying up-to-date with the latest industry trends and best practices, I am always looking to enhance my capabilities. A proactive and collaborative team member, ready to contribute to innovative projects and drive impactful results.

SKILLS

- **Backend Programming**
 - **Frontend Web Development**
 - **Web Application Development**
 - **Cloud Computing Platforms**
 - **JavaScript Programming**
 - **HTML, CSS Expertise**
 - **Programming Languages:** Java, Python
 - **JavaScript Frameworks:** React.js
-

EDUCATION

- **Diploma in Software Development:** Software Engineering
 - **Master's Degree (MCA):** Computer Applications
 - **Bachelor's Degree (B.Sc.):** Computer Science
-

WORK HISTORY

Walmart INC.

Customer Service Manager

08/2022 - 09/2023

Walmart

Customer Service Representative

07/2020 - 07/2022

KFC

Support Sales Associate

01/2020 - 01/2020

Vintech Systems and Technologies

Support Analyst

06/2008 - 10/2010

Vintech Systems and Technologies

Software Engineer

01/2007 - 05/2008

Vintech Systems and Technologies

Intern

01/2006 - 12/2006

TECHNICAL SKILLS

- **Cloud Computing:** AWS (Certified Cloud Practitioner), AWS Cloud Development
- **Programming Languages:** Advanced Java, Python, JavaScript (Node.js, React, NPM), SAP-ABAP, JDBC, Servlets, JSP
- **Web Development:**
 - *Front-End:* HTML5, CSS, DOM concepts, UI/UX Design
 - *Back-End:* Full-Stack JavaScript, Node.js Programming Concepts, Database Programming (Postgres, MongoDB)
- **Development Tools:** Git, GitHub, Trello, BASH Commands, ERD (Entity-Relationship Diagram), System Design
- **Methodologies:** Agile-Scrum, Technical Writing

RECENT PROJECTS

- **Full-Stack Application (Node, Express, EJS, MongoDB, PostgreSQL):** Developed a comprehensive full-stack application utilizing modern web technologies for server-side and database management.
 - **E-Commerce Platform (Java):** Created a robust Java application simulating an e-commerce platform with user authentication, role-based access, and PostgreSQL integration.
 - **Complete Database Design (PostgreSQL):** Designed and implemented a complete database system using PostgreSQL and related tools.
 - **Node.js Development:** Utilized core objects and npm packages in Node.js to create dynamic web applications.
 - **Web Server with Event Logging (Node.js):** Developed a web server with integrated event logging and a CLI using JavaScript.
 - **Full-Stack End-to-End Practices:** Demonstrated proficiency in building RESTful APIs using Node, Express, EJS, and PostgreSQL.
 - **E-Commerce Website for Electronics (React):** Created an e-commerce website focusing on UI/UX design and React for the frontend.
 - **Responsive Restaurant Webpage:** Developed a restaurant webpage using HTML5, CSS, and DOM manipulation techniques.
 - **Informative Webpage about Baltimore Oriole Bird:** Created an educational webpage featuring detailed information and visuals.
 - **HAB Taxi Services (Python):** Designed an ERD and report using Python for a taxi service company.
 - **Honest Harry Car Sales (Python):** Generated a sales report for a used car dealership using Python.
 - **One Stop Insurance Company (Python):** Created detailed insurance reports using Python libraries.
 - **St. John's Destinations (CSS):** Developed a visually appealing webpage showcasing St. John's destinations.
-

PREVIOUS PROJECTS

- **Used Car (2009-2010):** Centralized web-based application to streamline used car operations.
- **Online Monitoring System for Kotak Bank (2007-2009):** Web application providing features for customer queries and account information.
- **EPDS V2 Application Development (2006-2007):** Managed provider information for WellPoint as a consolidation project.
